

# World Metrology Day Event "Metrology in the Digital Era" MAY 2022

We warmly welcome you to World Metrology Day (WMD) Event, which is taking place as a virtual event.

The "Metrology for All" platform is pleased to organize a Webinar for World Metrology Day 2022 on the theme "Metrology in the Digital Era" to support and promote the importance of Metrology and World Metrology Day.

The Webinar is scheduled to take place on Tuesday, May 24th 2022.

**Metrology** is the science of measurement and its application.

**World Metrology Day** is an annual celebration of the signature of the Metre Convention on 20 May 1875 by representatives of seventeen nations. The Convention set the framework for global collaboration in the science of measurement and in its industrial, commercial and societal applications. The original aim of the Metre Convention - the world-wide uniformity of measurement - remains as important today as it was in 1875. The World Metrology Day project is realized jointly by the BIPM and the OIML.

## Metrology in the Digital Era

This theme was chosen because digital technology is revolutionizing our community, and is one of the most exciting trends in society today.

Indeed more widely metrology, the science of measurement, plays a central role in scientific discovery and innovation, industrial manufacturing and international trade, in improving the quality of life and in protecting the global environment.
